BARCODE+

DATA COLLECTION SOFTWARE

THE CUSTOMIZABLE BARCODE SCANNING SOFTWARE THAT'S EASY TO SET UP AND USE. BARCODE+ DATA COLLECTION SOFTWARE FOR PALM OS AND WINDOWS MOBILE DEVICES PROVIDES A USER-FRIENDLY WAY OF SCANNING BARCODES AND SENDING THE SCANNED DATA TO YOUR PC IN THREE STANDARD FORMATS.

Barcode+ data collection software for *PalmOS* and *Windows Mobile* devices provides a user-friendly way of scanning barcodes and sending the scanned data to your PC. This software facilitates data capture for mission critical business functions including physical inventory, asset management and record keeping.

The PC interface makes it easy to configure your custom settings as well as View, Edit and Export your data. With data output to commonly used Tab or Comma Separated (CSV) formats, **Barcode+** enables data integration with *Microsoft Access, Excel* and other popular inventory and POS applications such as Microsoft RMS and *Proxis Store Manager Software*.

Barcode+ works on the industry's leading Mobile Computers, PDA and "Scanwedge" enabled devices and supports both PalmOS and Windows Mobile Devices running Windows Mobile, Pocket PC or WindowsCE

If you require custom features to be added to Barcode+, Proxis custom programming is available. Please call 877.493.7949 or visit us online at www.proxissoftware.com for more details.
